Environmental Product Declarations for Construction (DAPcons®) are an essential instrument for environmental improvement in the construction sector and, therefore, a useful tool for technicians, manufacturers and users. DAPcons® certifications cover products from the different stages of a building. They provide objective, agreed and verified information on a product.
- 

Safety and joint durability are the main features of this easy installation system that guarantees the elimination of gaps between boards throughout the floor's lifetime. The pressure exerted between boards reinforces the union and prevents it from being carried out incorrectly.
- 

32. General commercial
- 

Installation system where gluing the boards to the floor is not necessary. They are placed on a foam, joined together, as long as the product does not already have a foil on the back of the piece.
- 

5 year warranty for commercial use valid for laminate floors that have been installed in rooms where they are exposed to normal wear and tear for their recommended End Use Category in accordance with EN 13329.
- 

Is suitable for installing on water radiant heating
- 

PanEuropean Forest Certification that guarantees to consumers the origin of the products from sustainably managed forests
- 

23. Intensive residential
- 

Abrasion-resistance level as per Standard UNE-EN 13329
